FOS

Design Angelica Lucatello

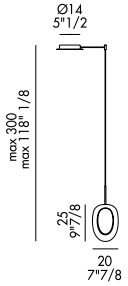

La lampada Fos è la lampada a sospensione che sfida la simmetria e celebra l'imperfezione, esprimendo funzionalità ed estetica in perfetto equilibrio.
Il designer Angelica Lucatello ha voluto rendere omaggio al concetto di naturalezza e spontaneità: un complemento di design dalla forma unica e avvolgente, ideale per arredare con stile gli spazi del living ma anche luoghi di lavoro sofisticati.
Le linee morbide e le curve irregolari connotano questa **lampada a sospensione di design** che diffonde una luce delicata rendendo l'atmosfera di ogni ambiente suggestiva. L'ispirazione nasce dalla reinterpretazione delle forme organiche, attraverso un'armonia che dà vita a uno spazio accogliente.
La luce che emana la lampada Fos si espande delicatamente sulle superfici e avvolge l'ambiente in un'aurea calda.
Caratteristiche uniche di questo elemento di illuminazione sono i paralumi in vetro borosilicato fumè.
Particolarità aggiuntiva, la lampada a sospensione Fos è di natura componibile e permette svariate combinazioni, che si adattano con versatilità a qualsiasi esigenza di spazio e di stile.
Disponibile anche la versione da terra con una struttura in metallo verniciato titanio o oro spazzolato.

The Fos pendant lamp challenges symmetry and celebrates imperfection, expressing functionality and aesthetics in perfect balance.
Designed by Angelica Lucatello, it pays homage to naturalness and spontaneity—a unique and enveloping design element, ideal for enhancing living spaces or sophisticated work environments.
Soft lines and irregular curves define this pendant lamp, which casts a gentle light to create a warm and evocative atmosphere.
Its inspiration comes from the reinterpretation of organic forms, giving life to welcoming spaces through harmonious asymmetry.
The light emitted by Fos softly diffuses across surfaces, enveloping the room in a warm, ambient glow.

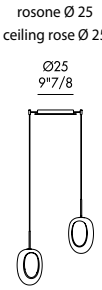

Standout features include smoked borosilicate glass shades.
An additional plus: Fos is a modular pendant lamp, allowing multiple configurations that can adapt to different spatial and stylistic needs.
Also available in a floor version with a metal frame in titanium or brushed gold finish.
