Pacini & Cappellini

Pacini & Cappellini

La storia di Pacini & Cappellini nasce da tanti amori: il legno, la casa, l'abitare inteso come aspetto della quotidianità essenziale per il benessere delle persone. Partendo da queste basi, da più di trent'anni, l'azienda produce e distribuisce in tutto il mondo, mobili e complementi d'arredo per la casa e la collettività: tavoli, sedie e poltrone, librerie e consolle, ma anche madie, porta-tv, realizzati interamente in Italia. La voglia di guardare al futuro, insieme alla volontà di assicurare continuità all'azienda, si realizza negli anni Novanta con l'ingresso dei figli, Luigi, Roberto, Moreno e Giorgio. L'idea alla base della nuova guida è mantenere ben saldi i valori tradizionali – facendo proprie la creatività, la passione e lo spirito di ricerca del padre – e introducendo sostanziali novità. Dal 1982 Pacini & Cappellini si avvale di tecnologie e processi industriali nuovi, e del contributo prezioso di un team di designer che dà vita a prodotti diventati icone.

The history of Pacini & Cappellini has born in between many loves: the wood, the home, the living thought as essential everyday life for the wellness of the people. Starting from those concepts, in the past 30 years, the Company manufactures and sells worldwide, furniture and accessories for residential environment and communities: dining tables, chairs and armchairs, bookcases and consoles but also sideboards and TV stands, entirely manufactured in Italy. The will of looking to the future, together with the will of secure the future of the Company, became real in the nineties when the sons of the founder Luigi, Roberto, Moreno and Giorgio, entered in the business. The idea is to keep firm the traditional values, learning from the father the creativity, passions and spirit of research, introducing substantial news. Since 1982 Pacini & Cappellini is using technologies and new industrial processes as well as the cooperation with a team of designers, developing products that have become.
